

**Are you a Veteran
with high PSA?**

Are you over 50 years of age?

Are you talking to your doctor
about a prostate biopsy?

Learn about the ExoDx™ Prostate Test

Now available to Veterans as an At-Home Collection Kit

The ExoDx Prostate Test is a **simple, non-invasive urine test** that can help you and your doctor determine the need for an initial prostate biopsy or repeat biopsy due to a prior negative biopsy.

The ExoDx Prostate Test is unique because it provides an additional data point not obtained through the general workup – it offers exclusive information that is not influenced by DRE, family history, PSA or other clinical information.

If you're visiting your doctor today, ask about the ExoDx Prostate Test.

Why the ExoDx Prostate Test?

- ✓ Helps inform if initial or repeat prostate biopsy is warranted
- ✓ Simple urine test can be collected any time of day
- ✓ Available at your doctor's office or through our At-Home Collection Kit
- ✓ NO Digital Rectal Exam (DRE) required
- ✓ NO Blood Test

What does the test score mean?

Watch how it works:
[Getting Started with the ExoDx Prostate Test](#)

Doctor trusted. Clinically validated.

The ExoDx™ Prostate Test (EPI) provides actionable information that aids the prostate biopsy decision for men in the 'gray zone' of 2-10 ng/mL and is not dependent on PSA or other clinical risk factors.

When there is uncertainty about proceeding with a biopsy, The EPI Test may be a solution.

Clinical studies show The EPI Test may help avoid unnecessary biopsies in patients with PSA levels in the gray zone.

Take charge of your prostate health today

Prostate cancer is the second most common cancer in men.

Incidence among U.S. veterans is
higher than the general population

2x

16,000

veterans are diagnosed with
prostate cancer each year

When detected early, prostate cancer is treatable.

hospitals in the VA system
have the capability to diagnose
and treat prostate cancer
(and more may be available in your CCN)

of patients diagnosed with
prostate cancer in the VA system
are considered localized, non-
metastatic and caught early

Exosome Diagnostics is proud to partner
with Veterans Prostate Cancer Awareness and
ZERO – The End of Prostate Cancer to support
every Veteran with information and education
addressing early detection of prostate cancer.

"I'm 61 and my PSA stays between 6 – 6.5ng/mL.
I've always had a normal DRE. I discussed the
pros and cons of getting a biopsy with my doctor,
and then learned about the ExoDx test. We decided
to get the test. My result came back below the cut-
point at 10.67, and now he doesn't want to see me
for six months! Thank you for your test!"

Now available to Veterans

The ExoDx Prostate test is covered under the General Services Administration (GSA) award contract with Exosome Diagnostics. The ExoDx™ Prostate Test (EPI) will be available to **9 million additional men** and **140 government entities** including the VA Healthcare System, military branches such as Army, Navy, Air Force and Marines, as well as the U.S. Senate, House of Representatives and other legislative bodies.

If you have trouble getting access to the test, please call us at **844-396-7663, Option 3, then Option 2**. We can help.

We've got you covered.

The ExoDx Prostate Test is covered by Medicare as well as the VA Healthcare system, Medicaid, and several private insurance plans. We can help you navigate the complexities of health insurance to determine if your plan covers the cost of the test.

The At-Home Collection Kit

Take control of your testing with 5 easy steps

1

Ask your doctor if the test is right for you. If the answer is yes...

2

An At-Home Collection Kit is sent to your home.

3

Use the collection device to collect your sample.

4

Return your sample by FedEx, using the prepaid label.

5

Get your results from your doctor to better understand your risk of clinically significant prostate cancer and determine if a prostate biopsy is necessary.
