

biotechne® /  
ExosomeDx™

## Now Available!

Take advantage of the  
ExoDx Prostate Test in  
the convenience and  
comfort of home.

## Clarity and confidence, we've got you covered.

ExoCARES is a Comprehensive Assistance and Resources from Exosome Support Program which provides personalized payment options. We are committed to communicating out of pocket costs to patients so there is no surprise billing. If you cannot afford the test, we may be able to help.

Depending on your specific circumstances, trained professionals can help with your journey to ensure the ExoDx Prostate Test is:

**Covered** by your insurance when possible.

**Covered** by a VA Medical Center and the Government Services Award, if applicable.

**Covered** by the ExoCARES Program which provides personalized payment options.

# Clarity, confidence, we've got you covered.

ExoCARES™ Program

## Accessing Resources You Need in the Prostate Cancer Journey

biotechne® /  
ExosomeDx™

# What is the ExoDx™ Prostate Test?

The **ExoDx Prostate Test** is a non-invasive urine test that can help you and your doctor determine the need for a prostate biopsy. The ExoDx Prostate Test provides actionable information that aids the prostate biopsy decision for men in the PSA 'gray zone' of 2-10 ng/mL, and is not dependent on PSA or other clinical risk factors.

## What exactly is PSA?

Prostate-specific antigen, or "PSA," is a blood test measured for many men in the primary care or urology setting.

While an elevated PSA level may be related to prostate cancer risk, there are several other causes for having an elevated PSA which are not due to prostate cancer. A prostate biopsy is a surgical procedure, taking a sample of tissue from your prostate. Deciding whether a biopsy is the right choice for you is an important consideration between you and your doctor since there is some risk of potential complications.

## Interpreting the score is easy.

The ExoDx Prostate Test score ranges from 0–100. If the score is below 15.6, there is a low risk for clinically significant prostate cancer.

The ExoDx Prostate Test provides your doctor with important information to help you make this decision.

## Insurance Process by ExoCARES

01

### Submit a claim

A claim is submitted to your insurer.

02

### Patient Notification

Patient receives max out-of-pocket text if claim is denied. If text is unavailable, a call will be made.

03

### Receive an EOB

Receive an Explanation of Benefits (EOB) from your insurer.  
*This is not a bill.*

04

### Coverage

In many cases insurance will pay for the complete cost of your test, however, deductibles and coinsurance may apply.

## Three Pillars of ExoCARES

### Covered by Medicare

The ExoDx Prostate Test is covered by Medicare and many commercial plans. While ~95% of insurers cover the test, the level of coverage may vary depending on the individual and their plan, and deductibles and coinsurance may apply.

### Supported by Guidelines

The ExoDx Prostate Test is included in the AUA and NCCN guidelines and covered by major insurance plans throughout the US. It is also covered through all VA Medical Centers.

### Covered by the Patient Advocacy Team

For patients whose insurance does not cover the ExoDx Prostate Test, our Patient Advocacy Team will auto-enroll you in the ExoCARES Program which will provide services that may reduce out-of-pocket costs. If you have financial challenges, we may be able to help.

## We're here to help.

If you need help paying for the ExoDx Prostate Test, ExoCares may be able to help. Call 844-396-7663 for more information.
